2014 Team Brick Buddies Member Application
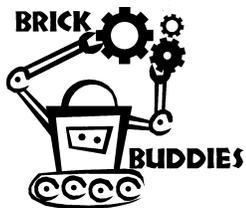

Name _____ DOB _____

Parents' Name _____ Phone:_____

Address _____ City _____Zip_____

Parent's Email _____

Student's Email _____Cell Phone_____

Student's Extracurricular Activity during September – February: Scouts, Band, School Clubs, Church, Sport Teams, etc._____

The nature of Team Brick Buddies is to participate on a competitive robotics team. Let us know your interest and level of commitment. The student applicant should read and initial their choice.

LEVEL A. I want to make robotics a priority. I plan to attend all practices and complete assigned tasks. I understand there is an expectation to attend additional practices closer to competition time. I will put forth my best effort and be a reliable team player, taking on responsibilities for programming or building.

We are aware there is an additional commitment to fundraising and outreach events, most which occur on weekends and some activities and tournaments may require that I be absent from school. _____

LEVEL B. I want to be a part of the team, improve my programming and building skills. However, due to my limited availability during the tournament season (Oct-Jan)—and because of my other activities, I understand I will have a minor role at tournaments.

I will also have limited time and schedule conflicts with being able to be a part of weekend outreach and fundraising events. _____.

LEVEL C. I am interested in being on a Robotics Team, but I am involved in other activities as well. I can't commit totally at this time, nor can I do much beyond attending some practices, but I would like to be involved in some way that is helpful to the team. _____.

_____ Date _____
As a parent, I agree with the choice my student has made.
I understand the dues for Team Brick Buddies is $300 and is not returned if my student drops out.
I understand there is a time and financial commitment involved in competitive robotics.
I understand there will be an additional fundraising component.
